CENTER

MANUFACTURE SMARTER

WHO WE ARE.

Since 1991, the Michigan Manufacturing Technology Center (MMTC) has helped small and medium-sized manufacturers become stronger and more competitive. Designed to meet your needs, we develop more effective business leaders, drive product and process innovation, promote company-wide operational excellence and foster creative strategies for business growth and greater profitability.

MMTC is supported by the Michigan Economic Development Corporation and the National Institute of Standards and Technology's, Manufacturing Extension Partnership. Through these strategic partners, you have access to the most objective, proven manufacturing solutions in the country. Our goal is to ensure West Michigan's manufacturing community continues to grow and succeed. Your business is a key component of that goal.

TRUSTED. EXPERIENCED. LOCAL.

MMTC-West has provided objective, straight-forward manufacturing technical support for companies just like yours for over two decades. Based in West Michigan, with strategic partnerships on a national scale, you'll find the solutions your business needs to succeed here in West Michigan.

MMTC-West is one of five regional offices that make up the MMTC network in Michigan. Based in Grand Rapids, MMTC-West covers a 13-county region in West Michigan: from the northern border of Mason, Lake and Osceola Counties, to the southern border of Allegan and Barry Counties.

Our success is measured by your results. Let's win together.

“MMTC-West's User Group format enabled RoMan to work in a group setting and tackle some of our most difficult lean challenges. The results have had a dramatic impact both on our production processes and our culture here at RoMan Manufacturing.”

Robert Roth, President and CEO
RoMan Manufacturing

WHAT WE DO.

We are the only objective, federally funded technical services group for manufacturers in West Michigan. We provide trusted, proven training solutions—from the executive office, to the plant floor, to the shipping dock. Talk to us about how we can help with:

- Assessment Tools
- Growth and Innovation
- Continuous Improvement (Lean) Solutions
- Quality and Safe Food Management
- Environmental, Health and Safety Solutions

THE SUPPORT YOU NEED, WHEN YOU NEED IT.

Today, being a successful manufacturer requires more than simply taking and fulfilling orders. To be a leader, your company must work to continually improve all aspects of your business from customer service and bidding processes to optimizing production capacity and overall profitability. MMTC-West can get you there. Our programs and services will help you:

- Increase Revenue and Profitability
- Improve Competitiveness
- Accelerate Speed to Market
- Improve Customer Responsiveness
- Increase Production Capacity
- Increase Cost Measurement Accuracy

BUILDING BETTER MANUFACTURERS.

Over the past three years, MMTC-West has assisted over 400 companies to achieve:

\$54.8

MILLION
in Retained Sales

\$33.3

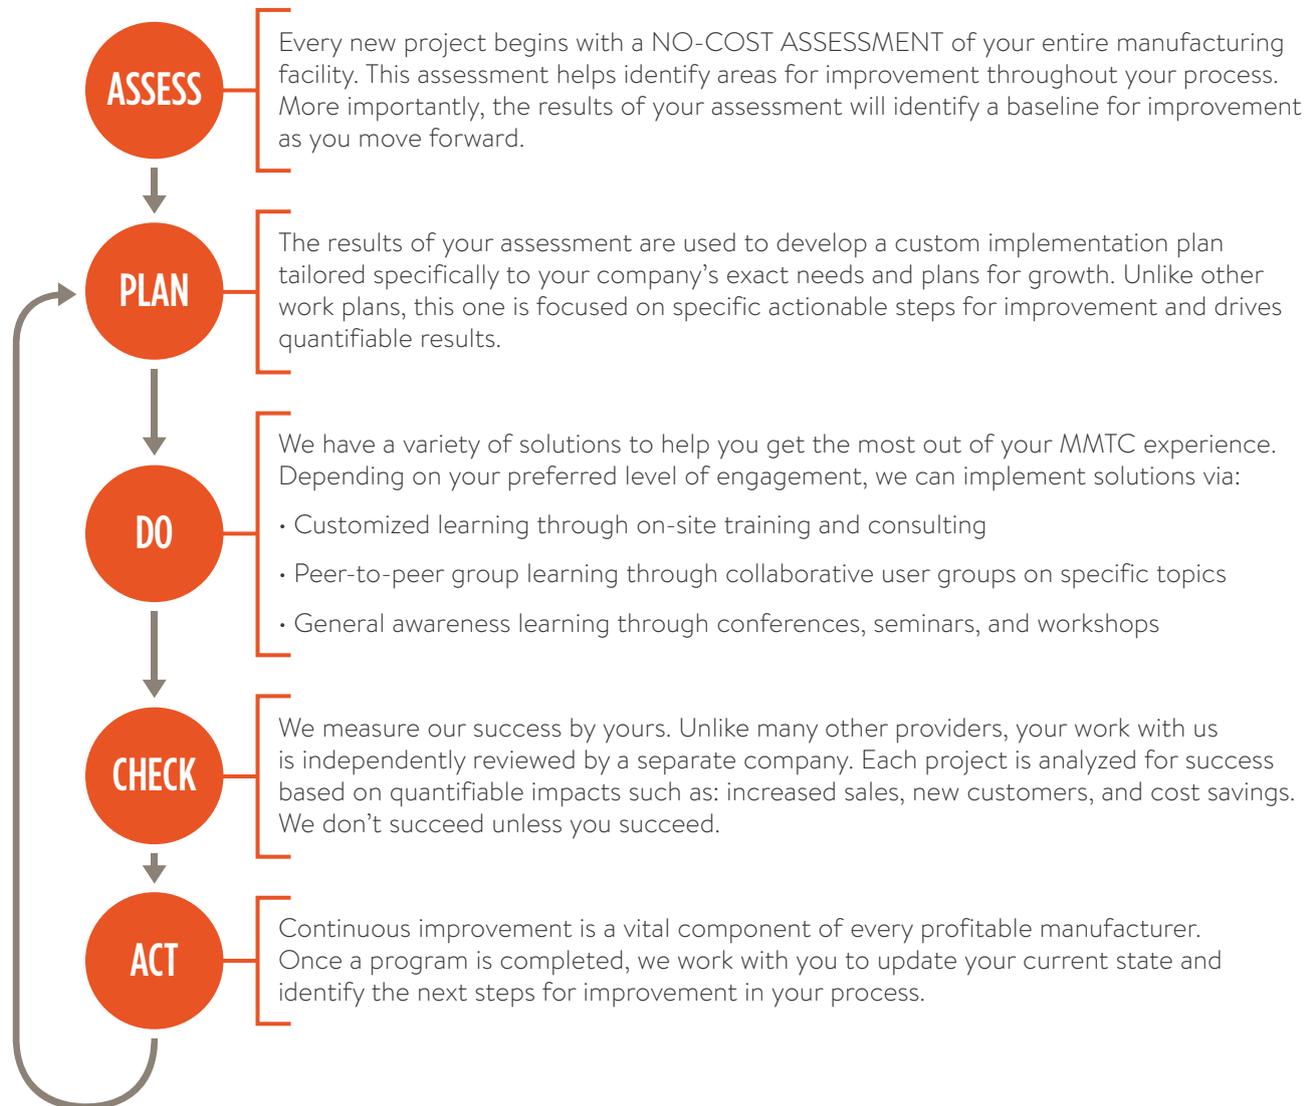

MILLION
in New Sales

\$11.5

MILLION
in Cost Savings

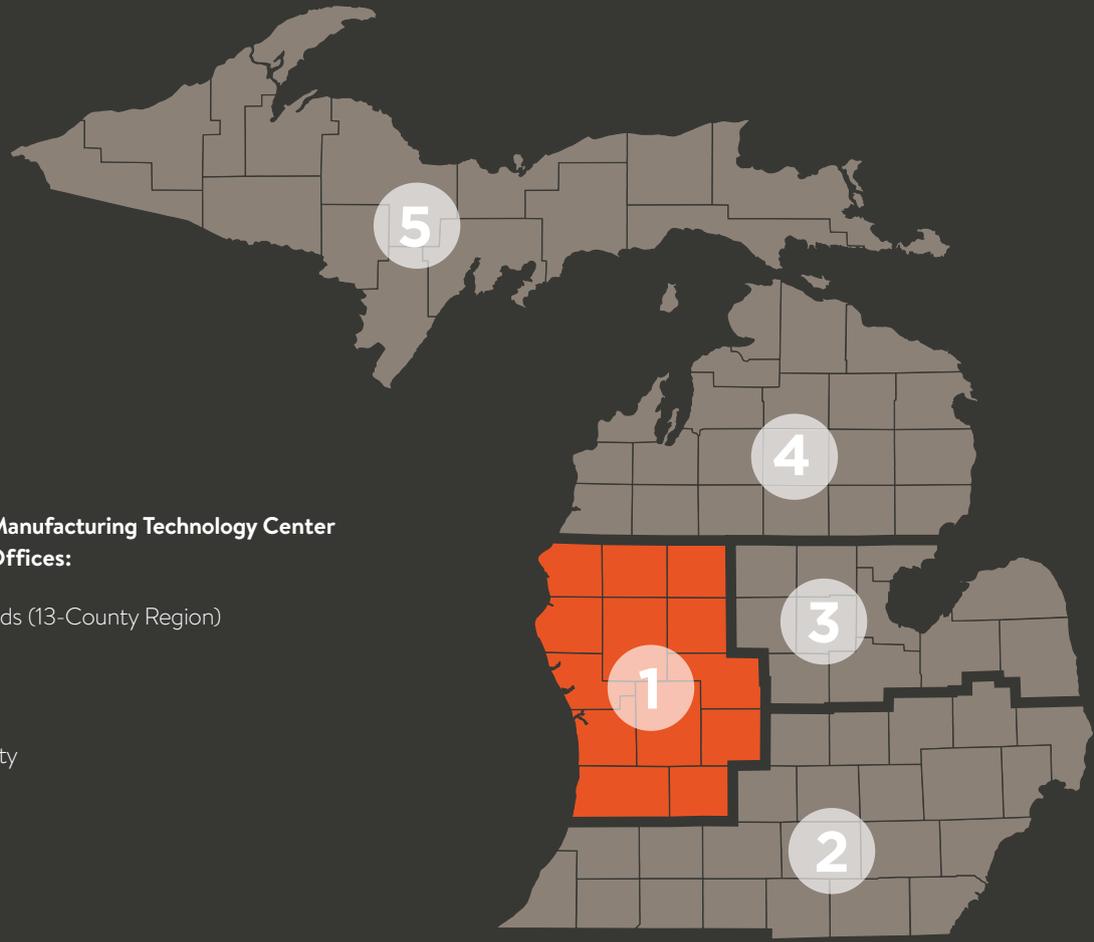

HOW WE WORK.

Whether you have specific areas for improvement or you're not sure where to start, we can build tailored solutions and provide resources to meet your exact needs. Our proven processes and experts are dedicated to maximizing every dollar you invest in improving your business.

“ MFP Automation Engineering has seen growth in both sales and employee size since working with MMTC. Our staff has put into practice lean manufacturing skills, which has opened valuable space in our warehouse. ”

Roger Betten Jr., President
MFP Automation Engineering
