GEOGRAPHIC COVERAGE

SUPPORTING GREATER WEST MICHIGAN

In 2012, Governor Snyder and the Michigan Economic Development Corporation (MEDC) worked with regional economic development leaders to establish 10 economic regions in Michigan. Once established, the MEDC appointed The Right Place and Lakeshore Advantage to lead regional economic development efforts within the newly established 13-county (Region #4). The Right Place now also provides economic development services to six counties in Region 4.

OTHER REGIONAL PARTNERSHIPS

STRATEGIC PLAN

Since our founding in 1985, strategic plans have provided both focus and direction for our work, work that has positively impacted West Michigan in the creation of thousands of new jobs and billions in capital investment. Building on this success, our 2017-2019 Strategic Plan was developed with our board of directors, staff, and community partners, along with support from our strategic partners at PwC.

Foundations of Economic Growth

Every community relies on strategic, foundational assets on which its regional economy can grow. These assets are the building blocks of long-term economic growth. To ensure West Michigan’s economic foundation is prepared for continued growth, The Right Place will focus efforts on several core areas: Business Support Systems, Infrastructure, Work-Ready Talent, and Quality of Life.

Strategic Growth Areas

No two communities or regions are alike, and each has unique industry strengths. In West Michigan, The Right Place and our partners have identified four strategic growth industries: Advanced Manufacturing, Food Processing and Agribusiness, Life Sciences and Medical Devices, and Information Technology and Communications. Over the next three years, The Right Place will work to grow investment and new jobs in each of these four industry sectors.

Thought Leadership

The Right Place plays a critical role in providing thought leadership and long-term economic growth strategies for the West Michigan region. By engaging the business and community leaders on our board of directors, The Right Place is able to set a comprehensive vision for economic prosperity in the region.
