

HEALTH SCIENCES IN WEST MICHIGAN

West Michigan is home to some of the most advanced healthcare, research, manufacturing and education facilities in the Midwest, many of which are housed on the Medical Mile. This area, located just northwest of downtown Grand Rapids, is renowned as a world-class healthcare destination. The clinical, research and academic institutions that line the Medical Mile have attracted medical professionals from around the world. The West Michigan region is also host to the highest concentration of medical device manufacturers in the state. From development and design, to manufacturing and distribution—West Michigan is your single source for high-tech biotechnology and medical device solutions.
